

# Dry Planterbox Treatment 7043

This product is intended for use in corn. The micro-organisms in Biolevel MaizeNP have been shown to increase availability of Nitrogen, Phosphorus and Potassium and can increase plant uptake. Increased nutrient uptake can lead to an increased yield.

## DIRECTIONS FOR USE

This product is intended as a dry planter box treatment for corn. This product can be applied directly to seeds in the planter box at the time of planting. Fill half the seed hopper and apply half of the required Biolevel MaizeNP. Stir to evenly coat the seed. Apply then the rest of the seed and the rest of Biolevel MaizeNP.

Planting Population	US fl oz/ unit of seed
23,000	8.8
28,000	7.3
33,000	6.0
38,000	5.3

Shake or stir product before use to loosen up any product settlement. Compatible with non-bactericidal inputs. For use in other crops please contact a Biolevel representative.

## STORAGE AND HANDLING

Please store in dry conditions and avoid repeated freeze-thaw cycles and temperatures above 50 Degrees Celsius (122 F).

**Manufactured by:** Biolevel Ltd., Hillside, Albion Street, Chipping Norton, Oxon OX5BH, United Kingdom.
