

Soluble Powder
7034

This product is intended for use in all crops. The micro-organisms in Biolevel PhosN have been shown to increase availability of Nitrogen, Phosphorus and Potassium and can increase plant uptake. Increased nutrient uptake can lead to an increased yield.

DIRECTIONS FOR USE

This product is suitable for all crop types. A single application per growing season is recommended. Biolevel PhosN is a fully soluble dry powder for liquid in-furrow application or fertigation. This product can be dissolved in water or non-bactericidal compatible inputs. Test for physical compatibility on a sample. Use up any product dissolved in liquid within 24 hours.

Application rates by weight:

Non-legumes: 100 grams/acre Legumes: 33 grams/acre

To measure with a scoop: Shake container as product might have settled during transport. Use provided scoop to measure below volumes of the dry powder.

Non-legumes: 5.5 FL OZ/acre Legumes: 1.8 FL OZ/acre

STORAGE AND HANDLING

Please store in dry conditions and avoid repeated freeze-thaw cycles and temperatures above 50 Degrees Celsius (122 F).
